Copyright 1912.

Introductory

The Publishers take pleasure in presenting their fourth edition of the Richmond Directory to their patrons with the assurance that it will be found equal, if not superior, to its predecessors. No expense has been spared in the preparation of the work; only experienced men have been employed, and the knowledge gained by many years devoted to Directory publishing has been used to advantage in the compilation of the present work.

POPULATION

The present volume contains 5942 names, which multiplied by 2 1-2 to represent the names of women and children whose names do not appear in the Directory, indicates a population of 14,850 for Richmond, its envirous.

We desire to thank our many patrons for their continued support and the public generally for the uniform courtesy extended our representative.

R. L. POLK CO.

Section 28, Copyright Law, in Force July 1, 1909.

"That any person who willfully and for profit shall infringe any copyright secured by this Act, or who shall knowingly and willfully aid or abet such infringement, shall be deemed guilty of a misdemeation and upon conviction thereof, shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars, nor more than one thousand dollars, or both, in the discretion of the court."

Richmond

R ICHMOND is located thirteen miles north of Oakland, and is connected with that city by The Southern Pacific and Santa Fe Railways and by electric cars. Here is the Western plant of the Standard Oil Company, the largest refinery west of Chicago. Its establishment at this point involved two great undertakings—the laying of a double pipe line from the oil fields of Kern county, 260 miles distant, the creation of pumping stations at frequent intervals to force the heavy crude oil from the wells to the reservoirs at tide water, and the building of the complex and immense refining plant, including a can factory with a capacity of 30,000 fivegallon cans per day. How complex is the system of refining the crude California oil with its asphalt base only an expert could tell.

Two large wharves are part of the necessary equipment, and the assembling of a fleet of vessels to carry the product.

About 1,000 men are employed regularly, many more being required when the Company is doing any contsructive work.

Richmond was chosen by the Standard Oil people because of its location, its San Pablo hills, its harbor, and its transportation facilities. The system is so arranged that the oil is handled almost entirely by gravity, the oil flowing from the highest points into the tanks lower down, to be from thence drawn off, refined and treated.

Pumping plants are located on the bay shore and other places where gravity is not available, the wharf carrying pipe lines through which are forced the cargoes of oil-carrying vessels. The plant covers 300 acres and is laid out systematically in divisions, streets and blocks.

A fleet of carrying steamers and vessels are required, and trainloads of products go by land every day in the year. Nearly 100,000 barrels of crude oil were handled during the month of May from the various districts from which this company draws their supplies. The works has its whale-oil plant near the bay shore, great car shops for repairing and equipping cars, can and barrel factories on the wharves at Point Orient whence are shipped the case oils to China and Japan.

The California Wine Association is another large corporation with headquarters and works at Richmond. "Winehaven" is at the extreme end of the Richmond peninsula, occupying a tract of forty-seven acres, and using a wharf 2,000 feet long, and the Belt Line Railway to faciliate handling freight. The plant has a crushing capacity of 25.000 tons of grapes and can store 10,000,000 gallons of wine. The company owns vineyards and operates wineries in nine or ten counties, about forty in number, and seeks to include all valuable grape-growing districts, qualities of soil, temperature and exposures. This is one of the largest establishments of the kind in the world. The trade of the Association is practically world wide, reaching the various countries in Europe, Egypt, the Phillippines, Hawaiian Islands, China, Japan and South America.

About one hundred men are employed ordinarily at Winehaven, but during the active season the total number will reach into the thousands.

It is the aim of the Association to keep California wines pure, and to promote their use as better than the distilled liquors used in this country.

The Pullman Car Company of Chicago has finished the erection of a plant covering twenty-one acres of ground near the city limits, which, is employing at present in the neighborhood of 1,500 men. This plant, which consists of seven large buildings, is devoted exclusively to the repair of the Company's cars on the Pacific Coast division of all the large transcontinental roads, including the Southern and Western Pacific, the Santa Fe, the Oregon and Navigation, the Great Northern and the Northern Pacific railways. The Western shops of this great corporation have heretofore been located at Denver, Colorado, but the Company decided that they could be operated more profitably at San Francisco and chose Richmond as the site for their new location.

The Western Steel and Pipe Company of Los Angeles has located a large pipe and steel works in Richmond, employing 200 men and with the Company contemplating added improvements to the plant this force will be even more enlarged.

Richmond also has the repair shops and terminal yards of the Santa Fe Rrailroad, employing 500 or more men; the Richmond Machine and Iron Works, the Berkeley Steel Co., the Richmond Manufacturing Co., the Richmond Pottery Co., the Los Angeles Pressed Brick Co., the Central Brick Co., the San Francisco Quarries Co., the Richmond Stone Quarry Co., chemical works, cocoa works, breweries, ship yards, etc., representing probably a capitalization of \$30,000,000 and paying out to employes fully \$250,000 per month.

Many of the manufactories along this seventeen-mile water front are large enterprises with ample capital and an established business reaching all along the Cost and represented in many Eastern centers.

Martinez

Martinez the county seat of Contra Costa County, situated on the Southern Pacific Railroad, 36 miles from San Francisco, is one of the most attractively located towns in the county, both for residence and business. It is a very important point, on account of its being the county seat and being surrounded by a fine agricultural country. Martinez has a population of 2700 inhabitants and has modern stores, hotels and other public buildings. The county court house is one of the finest in the State, built of cut stone with a beautiful plaza surrounding it.

Richmond Street Guide

1912-1913

Giving the Block Number for each street and avenue intersection in accordance with the present system of numbering, recently adopted and put into force by the City Council.

SYSTEM OF NUMBERING

All the numbered streets that run north and south begin with Number One at the line of the Santa Fe Railway (which runs east and west) and number each way north and south from this point. All streets running south from the Santa Fe tracks are to be designated with the prefix South, those running north to be designated with no prefix, for example: Number 26 First Street, south of the Santa Fe tracks, would be designated 26 South First and the same number North of the Santa Fe tracks would be designated as 26 First Street. (Not using the prefix North)

All the named streets and avenues that run East and West begin with Number 1 at First Street and number cach way. East and West from that point for example: 26 Barrett Avenue, East of First Street is designated as 26 Barrett Avenue, (not using the prefix East) 26 Barrett Ave West of First Street would be known as 26 West Barrett Avenue.

The same system is carried out at Point Richmond. The Santa Fe Railway tracks running North and South there, being the dividing line for all streets crossing it. The prefix West to be used on all streets running West and no prefix to be used on streets running East from this point.

Martinez

Martinez the county seat of Contra Costa County, situated on the Southern Pacific Railroad, 36 miles from San Francisco, is one of the most attractively located towns in the county, both for residence and business. It is a very important point, on account of its being the county seat and being surrounded by a fine agricultural country. Martinez has a population of 2700 inhabitants and has modern stores, hotels and other public buildings. The county court house is one of the finest in the State, built of cut stone with a beautiful plaza surrounding it.
